

O.R.E.O. Project

(Our Really Exciting Online Project)

Use the back of this sheet to show your work!

Student Name _____

Determine the **MEAN** from all the student stacks.

The mean is the average of the stacks once you have added them all together.

ANSWER

Determine the **MODE** from all the student stacks.

Write out all the stack counts, the number that appears the most, is the mode.

ANSWER

Determine the **MEDIAN** from all the student stacks.

To find the median, write all your stack counts in value order & find the middle number.

ANSWER

Determine the **RANGE** from all the student stacks.

The range is the difference from the smallest stack to the largest stack.
